This is a reply to the Office Action mailed March 8, 2004, setting a one-month statutory period for response. Please enter the following amendments and remarks into the record. The following Response restates the Election/Restrictions Amendments and now adds claim amendments and a clean set of claims.

The Examiner has instructed Applicant that the application must be restricted to one of the following inventions under 35 U.S.C. 121:

1

II. Claims 2, 3, 17-21 in total and claims 5-16 and 22-33 in part, drawn to a method of creating a repeat database, classified in class 707, subclass 6.

III. Claims 4 and 36-38, drawn to a database product, classified in class 707, subclass 103R.

IV. Claim 34, drawn to the process of Figure 2, classified in class 702, subclass 20.

V. Claim 35, drawn to data resulting from a method, non-statutory and unclassifiable.

Applicant hereby elects to proceed with Group II Claims and in particular therein, claims 5-16 and 22-23 as dependent upon Claim 2 only. If the Examiner believes a Preliminary Amendment should be entered in the case to eliminate reference to dependency on Claim 1 in any of the elected claims, Applicants request this be done by Examiner's Amendment (or that the Examiner inform Applicant to file a Preliminary Amendment).

Applicant also hereby requests Claims 1, 4, and 34-38 be canceled without prejudice and can be refiled in a continuing application setting forth additional inventions.

Status of the Claims

Claims 2, 3, 17-21, 39 in total, and claims 5-16 and 22-33 in part presently stand pending subject to restriction and/or election requirement.

Claims 1, 4, and 34-38 have been canceled without prejudice.
